MICOM-3 Enhanced Capabilities

- Enhanced capabilities through optional features.
- System flexibility based on DSP Ready for future growth.
- ISB- For High speed modem interface 19.2Bps, Link-11/22
- USB connector for key board & DBM messages
- AVL / GPS application
- GPS Internal or External
- Full function remote control head operation over 2 Wire or Fiber Optic.
- 4800bps modem Internal or External
- Encryption based on AES Internal or External
- Vocoder -Digital Voice Enhancement Internal or External

MRC (MICOM Radio Control)

PC Control Applications for control and program

- One Software package that includes full radio control, RSS ALE and RSS RADIO
- Log file to record the ALE activity
- Support USB communication port
- On line channel programming
- Panel Control menu

MICOM - High Power Solutions

Growing in Power
& Performance

Micom RM125

Micom RM500

Micom 1KW
System

Micom 4KW
system

MICOM RM500R High-Power RM-HF Transceivers

- 500Watt, 1000Watt and 4000Watt
- Complete base station Transceiver
- Based on Micom-3 radio
- PPS - Integrating site with PPS for co-site configuration
- Power amplifier and power supply Redundancy
- Excellent Spectral Purity
- 19" Rack Mount Radio
- Solid-State
- Auto Tuning
- 110/220VAC
- VSWR up to 4:1
- BIT

Remote control head over Fiber Optic Link

Control head

Desktop configuration

Fiber cable
up to 2.5 miles

FIBER UNIT

RM-125

19" rack configuration

Fiber cable
up to 2.5 miles

FIBER UNIT

RM-125

Control Unit

Remote control head over Fiber Optic Link

Remote control head over 2 wire

Control head

2 wire line – up to 3km

RM125

Power Amplifiers

500/1000/4000 Watt PEP & AVG

General Spec

- 3rd Order IMD..... >36 dB below pep
- RF Noise..... >75 dBc/Hz below full rated power **4000watt**
- Spurious Emissions -60 dBc or better at up to ± 5 percent from Fc, -80 dBc or better at greater than ± 5 percent from Fc
- Harmonic Levels..... -63 dBc
- Temperature Operating, -10 to +60 °C

500watt

1000watt

MICOM Accessories

Micom-Link

External Modem/Vocoder

Voice/Data
AES encryption

2 Wire/Fiber Optic
Remote -Control

Micom-Tel

Embedded Modem/Vocoder

Embedded Modem/VOCODER inside the Micom without form-factor modifications:

- Full control by the radio panel
- AES Secure

Modes of operation:

- Clear voice mode
- Clear Digital voice and data
- Secure Digital voice and data

Deep interleaver setting parameter supporting penetration of long fades and large noise bursts

LORD
BOARD

MODEM/VOCODER
BOARD

Modem/Vocoder Secure AES

- Stand Alone with selectable keys and Vocoder mode (Clear / Secure)
- Deep interleaver setting parameter supporting penetration of long fades and large noise bursts
- Commercial Audio accessories
- Data transceiver per MIL-STD 188-110B 4800

MICOM Applications

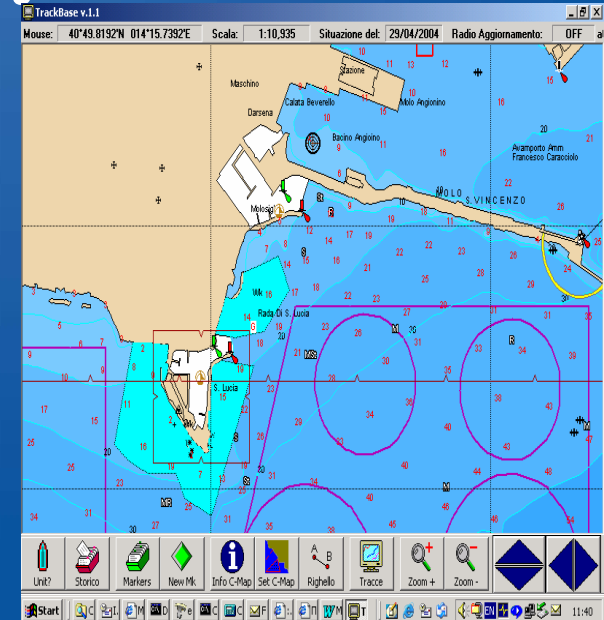

Micom Track

GPS based Automatic Vehicle Location (AVL) over HF

HF long range communication

- Long range GPS based, vehicle & vessel tracking/monitoring.
- Cellular Coverage/ Radio Relay independent operation.
- No Cellular provider fees or air time charges.
- Fixed cost tracking solution.
- High system accuracy.
- Graphical display over vectored maps.
- Easy Route Planning & Tracking.

Mobile Antenna Tuner for Voice

Frequency Band	1600 -to 30000 kHz.
Input Power	-Nominal 125 W
Tuned Antenna Input Impedance	50Ohm with VSWR \leq 1.4.
Tuning time from memory	300 mSec
RF power used for tuning	3to 6 W
DC supply voltage	12+VDC with less than 1A
Dimensions Tuning unit - Whip	530x 128 x 114 mm 6ft.
Operation Temperature Range	30 - to 60° C / -22° to 140° F
Storage Temperature Range	40 -to 85° C / -40° to 185° F
Humidity	20- %95to 85 ° C / -4° to 185° F

Control Center

Fully automatic interconnect,
with no operator assistance!

Mobiles with Micom-2E ALE radios

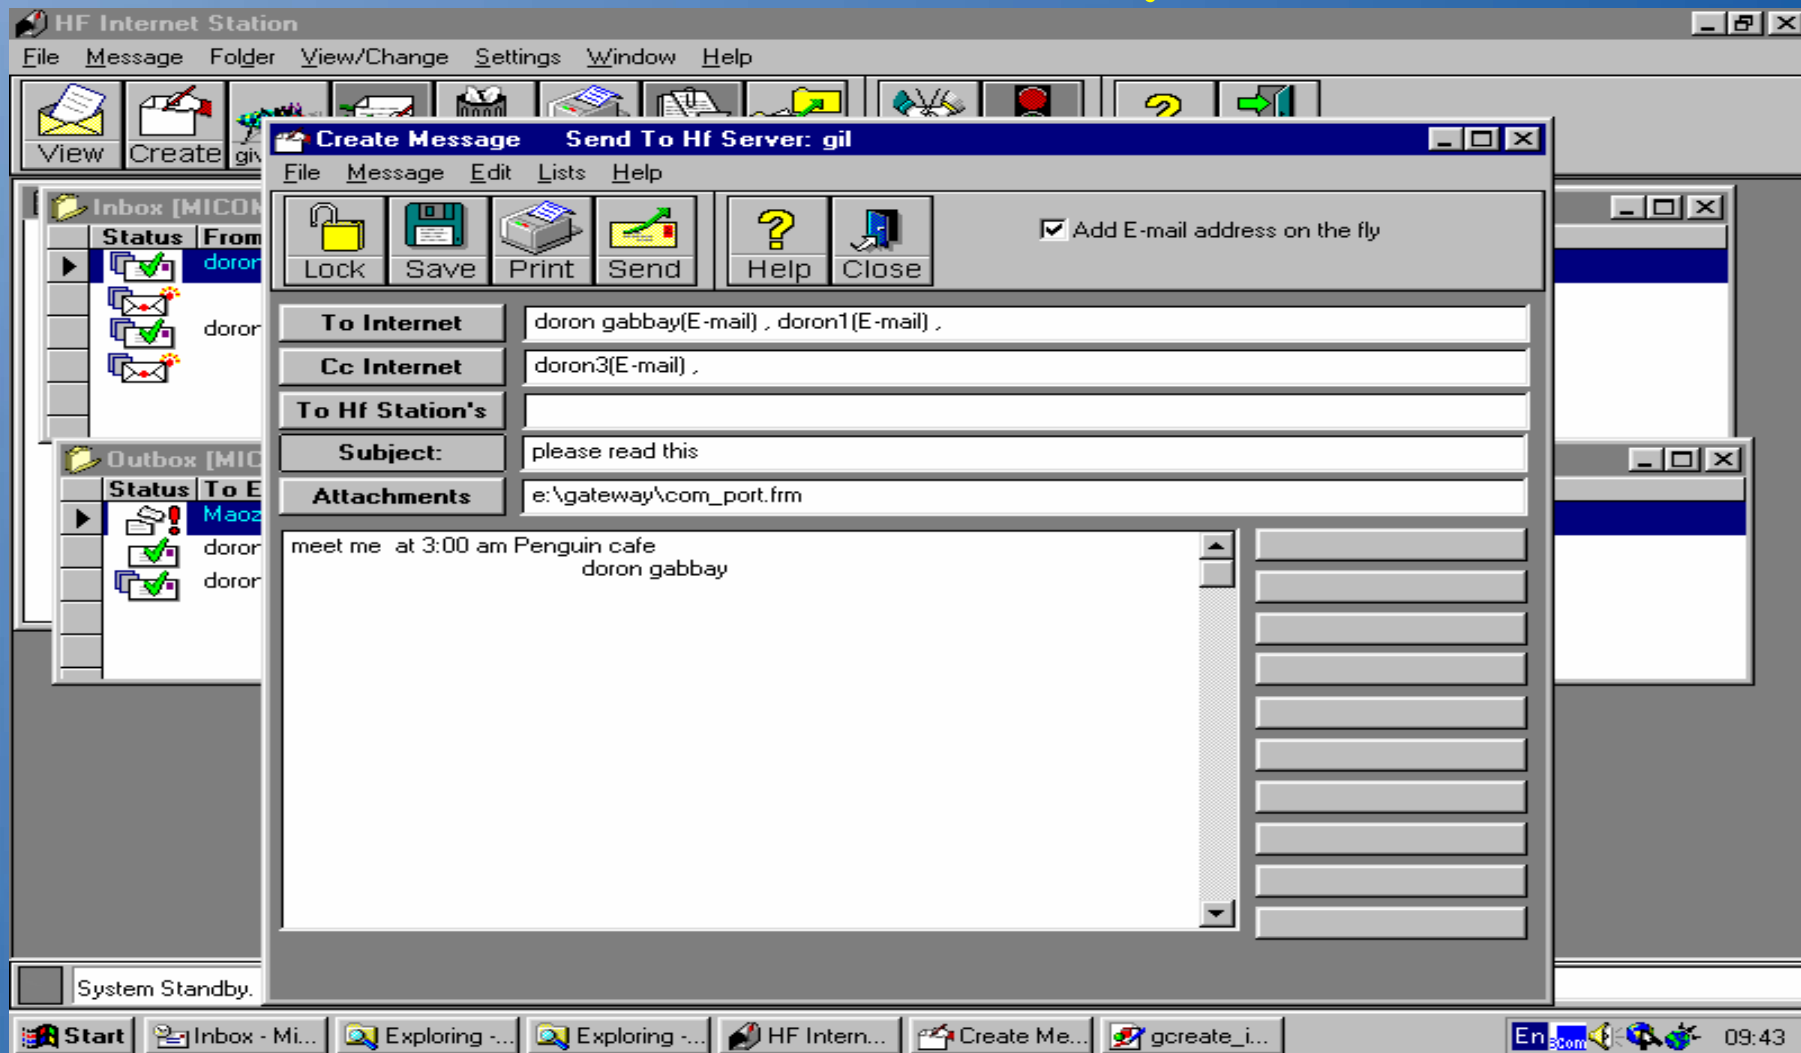

Mobile Antenna Tuner for Data

Frequency Band	1.6-30Mhz
Input Power	125Watt
Tuned Antenna Input Impedance	1.5
Tuning time from memory	300mSec
RF power used for tuning	5-7Watt
DC supply voltage	12+VDC with less than 1A (by the coax cable)
Dimensions - Tuning unit - Whip	
Operation Temperature Range	30 - to 60° C / -22° to 140° F
Storage Temperature Range	40 -to 85° C / -40° to 185° F
Humidity	20- 95% to 85 ° C / -4° to 185° F

Micom Mail /Gateway

Micom Multi-Net Capability

- Micom Multi-Net operation
 - Scanning multiple NETs (up to 20) simultaneously (MIL-STD188-141B enhancement)
 - Enhanced System configuration
 - Keeping interoperability with certified ALE radios
- ACS-Adaptive Customize Signalization
- Directory FIFO management to 20 over the air saved addresses (temporary directory to enable the users to select the addresses to save)
- Bi-directional LQA exchange with link on the best channel in real time
